TOUGHBOOK CF-54MK3

SEMI-RUGGED HIGH PERFORMANCE PC

Panasonic has redefined the design of semi-rugged notebooks with the launch of its Toughbook CF-54Mk3. Created for a wide range of workers in areas such as the automotive diagnostic industry and field service workers specialising in repairs and maintenance, the new Toughbook CF-54Mk3 with Windows 10 Pro is one of the thinnest and lightest semi-rugged notebooks in its class. However, it doesn't compromise on durability, with a unique 'honeycomb' design for improved strength, MIL-STD 810G and a spill resistant keyboard and touchpad. In terms of flexibility, the Toughbook CF-54Mk3 is equally outstanding, offering a huge array of configuration options, making it effortless for customers to choose the exact device spec they need.

- Intel® Core™ i5-7300U vPro™ Processor. 3Mb cache, up to 3.5Ghz.

- Optional configuration area (DVD or second battery or Smartcard Reader or PC Card)
- Optional configuration port (2nd LAN or dedicated 72 Channel GPS or 4th USB 2.0 or Rugged USB)
- Built-in security chip (TPM v2.0) for data protection

* Carried out in Panasonic technical research lab. Test conducted in non-operating condition.

** Spill resistance applies to all of the keyboard. It does not apply to the side panel, battery section, speakers, and DVD drive when it is open. The spill-resistant performance of the product does not guarantee that it will be free from damage or malfunction. If water is spilled onto it, be sure to have it repaired.
